

IL-02

Algonquin Rd 200 ft e/o Pyott Rd

West Face, 6' x 12' Internally Illuminated AdLite
Lake in the Hills
(560 DPI Vinyl Production)

Approach

Algonquin Rd is an extension of Illinois IL-62. It is one of the major east and west roads that delivers traffic to and from Cook County. It is also the biggest carrier of east/west traffic to and from Randall Rd and Rt 31. It delivers the highest traffic count enroute to the 2nd largest retail area in Chicagoland.

Closeup

The village of Algonquin is known as "The Gem of the Fox River Valley", since its downtown is nestled in the heart of Illinois' Fox River Valley. Now stretching all the way west to the busy Randall Road corridor, Algonquin has become a major center of retail activity and a growing business center for Northern Illinois. Algonquin's Randall Road district is now the 2nd largest retail center in the state of Illinois, while its downtown area retains the quaint charm of small town living.
