(560 DPI Vinyl Production)

Approach

US-12 is a major artery serving Fox Lake, Johnsburg, Spring Grove, Richmond and also carries traffic up to Lake Geneva. It delivers traffic to several large industrial employers and affluent estate areas. Most of the traffic on this road comes from Lake and Cook counties.

Closeup

Conveniently located on Route 12 in McHenry County, just 11 miles South of Lake Geneva, Richmond is a unique village - not a traditional suburb or a rural hamlet. Their core downtown area still boasts over 50 homes that the resident historian calls, "of important historic character representing all architectural styles in their original content". Most of Richmond's pre-settlement natural resources still exist and the village recognizes the importance of protecting these critical resources in perpetuity for all to enjoy. Richmond is a full service municipality with state-of-the-art services and award winning personnel providing services for all residents.
