Approach

IL-120 is a major connection between US-12 and McHenry. IL-120 carries East/West traffic to US-12 and several very large employers such as Baxter Laboratories and Abbott Labs in Lake County.

Closeup

The City of McHenry is a diverse community offering a variety of housing choices, a wide range of employment options and unparalleled access to recreational activities. With 2 major state parks (Glacier Park and Moraine Hills), McHenry is a key destination for outdoor enthusiasts. The Rt 120 and Rt 31 corridors have exploded with new businesses over the last decade. The City is in the final stages of planning its new downtown Riverwalk development which will be a thriving upscale living and retail center. Located at the heart of the Fox River, just 50 miles northwest of Chicago, McHenry has been able to retain its small town charm despite being located in one of Illinois' fastest growing counties. McHenry is conveniently located just minutes away from Interstates 90, 94 and 43.
